

LOADING THE ADVENTURE MODULE
TURN ABOUT IS FAIR PLAY

The fourth diskette of MASTER'S SCRIBE contains all the files to the adventure module TURN ABOUT IS FAIR PLAY. To load these files go to the UTILITIES section of MASTER'S SCRIBE and choose #4 LOAD. When it asks you to place diskette #1 in the disk drive put in MASTER'S SCRIBE diskette #4. The computer will read in the data.

On diskette #4 there is also a file that goes in the word processor directory. The file is called FAIRPLAY.DOC. Use the DOS copy command to move it. The word processor directory is the extension \WP of the directory you chose to put MASTER'S SCRIBE in. For example, if you chose to put MASTER'S SCRIBE into C:\MAST then you would copy FAIRPLAY.DOC into C:\MAST\WP

LOADING THE ADVENTURE MODULE
"TURN ABOUT IS FAIR PLAY"

The diskette labeled "Adventure Disk #1" contains all the files needed for the adventure "TURN ABOUT IS FAIR PLAY". To load these files, go to the UTILITIES section of Master's Scribe and choose option# 4 LOAD. When the system asks if you desire to load files, answer "y" for Yes. The system will then tell you to place diskette #1 in the disk drive. Place the diskette labeled "Adventure Disk #1" in drive A:.. The computer will load the data and tell you when it is finished. ***NOTE*** Loading the adventure files takes time, be patient.

On the diskette "Adventure Disk #1" there is a directory named WP. This directory contains the word processor files. Copy those files to the word processor directory of Master's Scribe. The word processor directory is the extension \WP of the Master's Scribe directory.

An example of the DOS command would be:

```
COPY A:\WP\*.* C:\MAST\WP
```

This command copies all word processor files from the diskette in drive A: to the directory C:\MAST\WP.

LOADING THE WORD PROCESSING FILES FOR

INTRIGUES IN ANTIETUM

The sixth diskette of INTRIGUES IN ANTIETUM contains the word processing files which explain the adventure module. Copy all files on the sixth diskette onto the word processor directory using the DOS copy command. The word processor directory is the extension \WP of the directory you chose to put MASTER'S SCRIBE in. For example, if you chose to put MASTER'S SCRIBE into C:\MAST then you would copy all of the sixth diskette onto C:\MAST\WP
